ALEXANDRIA, VA 22313-1450

June 1, 2004

INFORMATION DISCLOSURE STATEMENT

Dear Sir:

- 1) Pursuant to 37 C.F.R. §§ 1.56, 1.97 and 1.98 applicants enclose a Form PTO-1449, copies of the references listed thereon, and a copy of an International Search Report issued on January 22, 2003 in the parent International Application.
- 2) This statement is being filed together with the reply to the Notice to File Missing Parts in the above identified application, thus before issuance of the first Office Action on the merits, so no fee is due.

- 3) References AA to AE are each accompanied by an English Abstract. References AA to AE have been discussed at pages 2 to 6 of the specification. Therefore, no further discussion of the references is necessary.
- 4) Reference AB (EP 0,569,686) was cited in the International Preliminary Examination Report of the parent International Application, wherein the International Examiner asserted that the PCT International claims would have been obvious in view of this reference at page 2, lines 1 to 10, 29 and 56 et. seq. and page 3, line 3 et. seq. The International Examiner asserted that the reference discloses a method for operating an active obstacle warning system, which emits modulated light waves in the form of at least one radiation beam in a direction for measuring the spacing distance to an obstacle, and determines the spacing distance to the obstacle in connection with the transit time of the reflected light component, whereby the emitting power of the obstacle warning system is varied in a situation-dependent manner within the time duration of a radiation beam, but the radiation beam is not emitted with a prescribed time duration. The assertions of the International Examiner are not adopted or ratified as correct by the applicant, but they are submitted for the US Examiner's consideration of the possible relevance of this reference.
- 5) Moreover, the enclosed Search Report indicates the degree of relevance of each of the references AA, AC and AD by category (A = technological background; and X = relevant for anticipation

or obviousness when considered alone). Thereby, the requirement for a concise explanation of the relevance of the foreign language references has been satisfied (see M.P.E.P. §609).

- 6) Applicants respectfully request that the Examiner consider all references of record, return an initialled copy of the enclosed Form PTO-1449 to the applicants and ensure that all references of record are printed on any patent issuing from this application.
- 7) Favorable consideration and allowance of claims 1 to 24 are respectfully requested.

Respectfully submitted,

Josef BAERENWEILER et al.  
Applicant
